

Financial Law Apéro

CSDDD: a real game changer for the business?

We are delighted to invite you to a Financial Law Apéro just before the summer holidays on the **Corporate Sustainability Due Diligence Directive**.

On April 24th, 2024, the European Parliament formally adopted the Corporate Sustainability Due Diligence Directive (CSDDD), introducing new EU legislation obliging companies to conduct human rights and environmental due diligence both in their own operations and across their chains of activities. The text proposed by the European Commission has undergone quite some changes during the legislative process. Is this new EU law a real turning point in the way businesses will carry out their activities?

Anne Sophie Pijcke, expert advisor to boards of directors in the field of corporate governance, including the sustainability dimension, will share with us her views and insights on the practical implications of this new law.

TIME and PLACE:

Thursday 6 June 2024, late afternoon:
